Performance returns are based on composite of CIBC Wood Gundy Advisor Managed Accounts ("AMA") invested in an investment strategy managed by the AMA Portfolio Manager.

The performance returns are geometrically linked and calculated by weighting each account's monthly performance against its market value at the beginning of each month as represented by the market value at the opening of the first business day of each month. Performance returns are gross of investment management fees, and other expenses, if any.

Individual AMA performance results may differ from those in this document due to the above and other factors such as an account's size, the length of time an AMA strategy has been held, cash flows in and out of the individual account, trade execution timing, market conditions and movements, trading prices, foreign exchange rates, specific client constraints, and constraints against purchasing securities of related and connected issuers to CIBC Wood Gundy.

Past performance may not be repeated and is not indicative of future results. This document is prepared for informational purposes only and is subject to change without notice.

This document is not to be construed as an offer to sell, or solicitation for, or an offer to buy any AMA strategy or other securities. Consideration of individual circumstances and current events is critical to sound investment planning. All investments carry a certain degree of risk. It is important to review objectives, risk tolerance, liquidity needs, tax consequences and any other considerations before choosing an AMA strategy.
